

NEGROES IN DISFAVOR

Roosevelt is Naming Fewer Black Men for Office.

WHITE HOUSE DENIES THE FACT

Southern White Men Are Coming to the Front and Are Displacing the One-Time Republican Leaders in Dixie Land—Vengeance Vowed.

(By Associated Press.)
WASHINGTON, D. C., Jan. 23.—White House officials deny a story that the negroes of the South are not to have any more Federal appointments and that gradually those now holding places are to be displaced by white men.

The President is represented as desiring to build up for himself strength among Southern white men of the better class and as realizing that he cannot do this so long as the negro is likely to play a part in political affairs. While it is true that the Southern negro has not received any recognition in the last year or more worth waxing joyful over, he will not, according to information at the White House, suffer any loss of the patronage he now holds.

President Roosevelt has conferred a good many favors on Confederate veterans and their sons.

The failure of the President to retain Judson Lyons, of Georgia, as register of the treasury, has caused some of the Southern negroes to fear that the President proposes to ignore their existence. The President appointed a Kansas negro named Vernon to the position, and Vernon is expected to look after the

Many a Newport News Reader Will Feel Grateful For This Information.

When your back gives out; Becomes lame, weak or aching; When urinary troubles set in, Your kidneys are "in a bad way" Doan's Kidney Pills will cure you. Here is local evidence to prove it:

Mrs. F. Lochstamper, of 534 Thirtieth street, says: "For six months pain in my back, if not constant at first, gradually increased until I was scarcely able to stoop, and to lift anything or any overexertion hurt so that I was often in misery. Even the slightest cold increased the suffering and morning after morning I was so lame and sore across the loins that I could hardly attend to the slightest housework. I never was successful in getting anything which brought permanent relief until I went to Allen's drug store for Doan's Kidney Pills. In a very short time, considering the nature of my case, they stopped the attack."

Covert Attack on the Railroads.

The Senate committee on finance and banks today reported favorably the resolution presented by Senator Thomas, of Lynchburg, directing the Corporation Commission to report as to the discrepancy between the valuation of the common carriers of the State as given by the bulletin of the United States department of labor of commerce and the assessed value made by the Corporation Commission.

Mr. Thomas said there was an apparent difference of \$148,000,000 between the report and the figures given in the bulletin.

State Loses Millions.

Mr. Thomas said that he wanted to make it clear that he meant no reflection whatever on the State Corporation Commission. That body was discharging a public duty and had greatly benefited the State. The revenues of the State had largely increased, but if the value of the roads was as great as given in the bulletin, then the counties and cities of the State were losing about one million dollars a year in taxes.

The adoption of the resolution could do no harm and the reply would enlighten the members of the Senate.

The resolution was adopted by a unanimous vote.

Coal Miners Elect Officers.

(By Associated Press.)

INDIANAPOLIS, IND., Jan. 23.—The convention of the United Mine Workers of America today adopted the report of the scale committee with practically no changes. The discussion of the proposition to endorse the plans of the anthracite miners caused a clash between President Mitchell and Vice President Lewis. The old officers were re-elected.

ONE CAR ESTABLISHED NEW MARK

Cigar-Shaped Steamer Makes Remarkable Time at Ormond-Daytona Tournament — Vanderbilt's Wonderful Car Has Not Had Trial.

(By Associated Press.)

ORMOND, FLORIDA, Jan. 23.—The world's record for the mile was twice lowered today in the fourth annual Ormond-Daytona automobile tournament, and both times by the same car, the cigar-shaped steamer driven by Fred Marriott.

In the first start of the contest for the Sir Thomas De War trophy, the racer made the mile in 32.15 seconds.

Rain during the morning delayed the starting of the races and the course was not in the best condition for high speeding.

Two Close Heats.

In the one-mile international for the De War trophy two preliminary heats were run, Marriott, Lancia and Cedrino qualifying for the final. The second heat was particularly close, only 3.5 of a second separating Lancia and Cedrino for first and second place. In the final Marriott won, going the mile in 33 seconds flat. Cedrino was second in 38 and Lancia, owing to trouble with his car, was unable to start.

Gasoline Cars Race.

In the one-mile heavyweight championship for gasoline cars two preliminary heats were run off, Cedrino, Fletcher and Lancia qualifying for the finals. Lancia won this race in 37 flat, with Fletcher a close second at 37.35 seconds.

The steam racer driven by Marriott was the only entry in the one-mile championship for steamers an odd 10th mile in 31.45 seconds, breaking all mile records, including his own former one.

One Race Postponed.

The middleweight one-mile championship for gasoline cars went over until tomorrow.

Owing to the fact that Hemery's lightweight car was over weight, he withdrew his other was and returned them into the garage.

The Vanderbilt 250-horse power car did not start in any events.

Student Accused of Hazing Has Professor Excused.

(By Associated Press.)

ANNAPOLIS, MD., Jan. 23.—A challenge against Professor Philip R. Alger, a member of the court martial which is trying Midshipman Claude B. Mayo, on charges of hazing, was sustained today and Professor Alger was excused from further attendance during the trial.

The ground upon which the challenge was based was that Professor Alger had talked with Lieutenant C. P. Snyder, a witness, with regard to the latter's testimony.

NORFOLK COUNTY IS TRYING TO PREVENT ANNEXATION

County Politicians Do Not Want Their Territory Absorbed by the City.

(Special to the Daily Press.)

NORFOLK, VA., Jan. 23.—A political move is on in the thickly settled suburban sections of Norfolk county to prevent annexation, and the county politicians have devised a scheme which they think will work by making it too expensive for Norfolk city to annex any more outside territory.

One plan is to build the county up with expensive school buildings for all of which the city must hand over cash when she attempts annexation.

The Tanner's Creek section, which includes the village of Hunterville, is now seeking to have the legislature authorize it to issue \$30,000 in school bonds and Western Branch district wants a like issue of \$40,000.

Guardsmen Want Insurance.

(Special to the Daily Press.)

WASHINGTON, D. C., Jan. 23.—At the beginning of today's session of the International National Guard Association the committee on resolutions reported adversely on a resolution offered which provided that it be the sense of the association that steps be taken in the courts to test the validity of insurance policies containing a clause prohibiting policyholders from entering the military service of the United States and providing that legislation should be had preventing the making of contracts containing such restricting clause.

OIL MEN MAKE APPEAL TO THE UNITED STATES

Independent Refiners of Kansas Allege Fraud in an Appeal for Justice.

(By Associated Press.)

CHANUTE, KAN., Jan. 23.—The independent oil refiners of Kansas have mailed to James R. Garfield, commissioner of corporations of the department of commerce and labor, an appeal for justice against the alleged conspiracy between the Standard Oil Company and the railroads to shut Kansas oil out of the market.

The refiners who sign the appeal are: Clifford Thorne, A. F. Robertson, F. C. Bennett, C. D. Webster, J. M. Cameron, H. Kaesman, D. C. McGee and C. E. Martin. These men own eight refineries now in operation in addition to two in course of erection at Atchison and Kansas City. They have invested more than \$1,000,000 in refineries, tank cars, storage tanks, wagons and barrels.

They claim that by reason of a conspiracy between the Standard Oil Company and the railway systems of the Southwest, particularly those railroads operating in Kansas, Missouri, Nebraska, Arkansas, Kansas, Iowa and the territories of Oklahoma and Indian Territory, they are limited to the State of Kansas for a market for their refined oil; that to all points outside of Kansas the freight rates on all products of crude petroleum are unreasonably high, and have been maintained at such unreasonably high rate for the express purpose and for no other purpose, than to confine business of the independent refiners of the State of Kansas.
